COVID-19 has disrupted in-person learning and routine health visits for many children since 2020.^{1,2} As Malaysia and Singapore continue to achieve high COVID-19 vaccination rates, life is transitioning to the new normal which includes the reopening of schools. It is important for children to be able to return to school safely by catching up on recommended vaccines. This webinar focuses on respiratory vaccine preventable diseases for children returning to school. Join us as our speakers, **Dr Rakhee Yadav**, Paediatrician, Ara Damansara Medical Centre, Malaysia and **Dr Lee Bee Wah**, Paediatrician, Mount Elizabeth Specialist Centre, Singapore discuss about the importance of influenza, COVID-19, pertussis and pneumococcal vaccinations in children as they return to school.
