

COFFEE SESSION WITH

MyPPC is delighted to host **case-based paediatric palliative care discussions** on a virtual platform. We hope these discussions will be able to support the educational needs of clinicians as they care for children with serious illnesses.

Do join us as MyPPC members from different parts of the country share and reflect upon clinical cases whilst highlighting essential learning points in paediatric palliative care. These sessions will be held on alternate months starting from February 2022.

We also welcome other clinical cases from clinicians managing children with serious illnesses – we will be happy to arrange virtual meetings on an as-needed basis to discuss the various aspects of palliative care related to these cases.

- **VENUE:** Online platform (eg Zoom or Google meet)
- **DATE AND TIME:** 2nd **THURSDAYS** of alternate month at 1–2pm.
- **PROGRAM:** Case presentation 20–30minutes followed by discussion for another 20–30minutes.
- **PARTICIPANTS:** Members of MyPPC, doctors from respective region / hospital that is presenting, health care providers interested in PPC.
