

# SEANUTS II conference

New insights on the nutrition and health status of Southeast Asian children

Join this  
free online  
conference:  
17 & 18 June  
2022

Please be invited to the SEANUTS II conference, a 2 half days digital event where the first results of SEANUTS II will be shared.

## The South East Asian Nutrition Surveys

(SEANUTS) is a large nutritional study initiated by FrieslandCampina and conducted by leading and reputed universities and research institutes in 4 countries: Indonesia, Malaysia (in collaboration with UKM), Thailand and Vietnam. SEANUTS II is the second instalment, and it aims to study the nutritional status, dietary intake and lifestyle behaviors of more than 13,000 children aged 0.5 to 12 years in the 4 countries.

## Conference & speakers

Principal investigators from the 4 countries will present the outcome of SEANUTS II, which will provide new insights in the areas of nutritional and nutrient status, dietary habits as well as the impact of COVID-19. Next to that, the other distinguished speakers will share their expertise on topics linked to malnutrition, national policies, breakfast and micronutrients.
